Sir:

SUPPLEMENTAL RESPONSE

In furtherance of the Response filed electronically on August 14, 2006, consideration of a Supplemental Response is requested.

The Supplemental Response begins on page 2.

Supplemental Response:

A response to the latest office action was filed on August 14, 2006. A typographical error has been discovered in that response. Five lines from the bottom of page 24 is the sentence, "The cross-linking agent in the present invention works in a different." The word "manner" should be added as the last word of this sentence so that the sentence reads, "The cross-linking agent in the present invention works in a different manner."

Any additional fee due in conjunction with this Supplemental Response should be applied against our Deposit Account No. 19-0522.

Respectfully submitted,

By
